

# ADVANCED APPRENTICESHIPS

## Plastering

This course gives the learner the advanced skills of the plastering trade.

The entry criteria is prior achievement of the Apprenticeship Framework Certificate at Level 2 and employment in the trade.

The duration of the course is 1 year on a block release basis, whereby the learner spends one week in College during term time and two weeks with the employer. All learners are expected to complete the following to achieve the Advanced Apprenticeship at Level 3.

There are **three elements** to the Advanced Apprenticeship:

As well as **NVQ Plastering Level 3 (Solid or Fibrous Plastering)** there are also external examinations for the **Advanced Technical Certificate** and **Key Skills** in Application of Number and Communication at **Level 2**.
